Butcher Snags

Purchasing sausages from the Local Butcher increased expenditure for BBQ supplies, this will have to be addressed as there was not a lot of money generated from the BBQ sales after purchasing the sausages even when the price per kg was negotiated.

Cash from the till was deposited into the bank but made up for minimal takings as the Square reader is the preferred method for buying snags.

#### **Balance at 30 June 2024**

\$7,338.39
